You’re great with your hands, love the outdoors and have an appreciation for livestock and sustainability. Have you considered a career in the agricultural industry? This is an employment based training course and consists of on-the-job (workplace) training and off-the-job (VET) short courses.

WHY STUDY WITH US?
The Certificate III in Agriculture is designed to develop the skills and knowledge of people who carry out daily farm routines with limited supervision. The training will offer the skills you’ll need to work on a farm to establish and harvest crops, contribute to a safe workplace and care for livestock. The skills covered in this qualification involve the implementation and management of farm practices without supervision. You can choose electives that relate to the farming enterprise you choose to work in, which can include sheep and wool, grain production, beef cattle production, or a mixed enterprise. You will need to be partly supervised to complete this training.

COURSE STRUCTURE
Sixteen (16) units of competency are required to complete this course: two (2) core units and fourteen (14) elective units. The elective units selected will be customised to the individual farming enterprise.

Core Units

AHC30110

Contribute to OHS processes

AHCWTRK313A

Implement and monitor environmentally sustainable work practices

Elective Units

AHCCM303A
Prepare and apply chemicals

AHCCHM304A
Transport, handle and store chemicals

AHCBAC306A
Establish agricultural crops

AHCONF303A
Plan and construct conventional fencing

AHCMMOM302A
Perform machinery maintenance

AHCMMOM305A
Operate specialised machinery and equipment

AHCPMG301A
Control weeds

AHCPMG302A
Control plant pests, diseases and disorders

AHCMMOM311A
Operate precision control technology

AHCBAC308A
Undertake agricultural crop harvesting activities

AHCLSK301A
Administer medication to livestock

AHCLSK308A
Identify and draft livestock

AHCLSK309A
Implement animal health control programs

HLTFA301C
Apply first aid

CAREER OPPORTUNITIES
Graduates from Certificate III in Agriculture will have the potential to obtain employment in a variety of roles including the following:

• Farm or station hand
• Farm or station worker

STUDY MODE
External or Traineeship. Students need to be employed in the Agricultural Industry and complete work based assessments whilst learning on the job.

LOCATION/DURATION
You can enrol in this qualification at any time and it will normally take 12 months to complete. This qualification can be completed anywhere where you have access to a working farm. Your trainer will come to you for practical assessments.

RECOGNITION OF PRIOR LEARNING
You will have the opportunity to be recognised and assessed on your existing skills and knowledge gained through prior training and life and work experiences.
