C.Y. O’Connor Institute offers a range of flexible study modes

STUDY MODES

Flexible Delivery
This may include attendance at scheduled classes and workshops; and workplace learning. Study anytime anywhere with delivery and assessment meeting industry standards. Learning materials are delivered via an online platform.

Industry Based
Students need to be employed in a relevant sector of the agricultural or agribusiness industry and complete work based assessments while learning on the job.

Recognition of Prior Learning (RPL)
RPL is a process that recognises the existing knowledge and skills you have gained through formal and informal learning and through life and workplace experiences. It gives you the opportunity to have your knowledge and skills assessed against competencies in training packages and accredited courses. You can achieve a partial or full completion of a qualification.

To find out if you may be eligible please contact C.Y. O’Connor Institute on 9081 3555.

Traineeships
Trainees need to be employed in a farming or business enterprise and the employer must register the traineeship with the Apprenticeship Office (formerly ApprentiCentre).

The delivery is designed to be flexible and meet the requirements for the agricultural industry. Trainees must be working in the agricultural industry and the training and assessments are workplace based.

Vocational pathways to Muresk

- Are you working on a farm or in a business associated with agriculture?
- Are you, or did you study at WA College of Agriculture - Harvey?
- Do you want a rewarding career in agriculture?

The WA College of Agriculture - Harvey, C. Y. O’Connor Institute and Charles Sturt University are working together to offer flexible learning pathways that allow you to achieve your dream of studying at university. There are pathways available to suit your personal circumstances.

If you already have a Certificate II or a Certificate III in Agriculture, with on-the-job experience, you can work towards entry into the Charles Sturt University Bachelor of Agricultural Business Management at Muresk.

Whatever pathway and mode of study you choose, your prospects for employment and advancement in your career will be enhanced. You could be ready for University in 12 just months.

All options below lead into the Bachelor of Agricultural Business Management at Muresk.

Here is how it works...

If you have graduated from WA College of Agriculture - Harvey with a Certificate II and some units from the Certificate III, then you need to:
- find an employer who will take you on as a trainee;
- enrol in a Certificate III in Agriculture at C.Y. O’Connor Institute (this qualification includes four selected units from the Certificate IV in Agriculture). Training will be conducted mostly on-the-job, with workshops as required at the WA College of Agriculture - Harvey coinciding with school holidays breaks.

Successful completion of the above will gain you guaranteed entry into the Bachelor of Agricultural Business Management degree.
